Node.js.

- Implement and maintain MVC architecture in web applications for clean and efficient code.
- Design and optimize MySQL database schemas and queries for performance and scalability.
- Build and integrate RESTful APIs to support frontend and other backend services.
- Work with AWS services (EC2, S3, RDS, etc.) for deploying, managing, and scaling applications.
- Utilize GIT for version control, ensuring clean and organized code management.
- Collaborate with cross-functional teams, including frontend developers, designers, and product managers, to deliver high-quality products.
- Debug and resolve technical issues and bugs in a timely and efficient manner.
- Continuously learn and adapt to new technologies, tools, and best practices in web development.
- Apply knowledge of Data Structures and Algorithms (DSA) to optimize application performance and solve complex problems.
- Participate in code reviews, provide constructive feedback, and contribute to improving coding standards and practices.
- Work independently and proactively in a startup environment, managing multiple tasks and projects effectively.

Qualifications:

- Bachelor's degree in computer science, Engineering, or a related field, or equivalent experience.
- 4-5 years of experience as a React, nishantomar21@gmail.com PHP and Node.js Developer.
- Proficiency in PHP frameworks, particularly Laravel, and a strong understanding of MVC architecture.
- Experience with Node.js and JavaScript runtime environments.
- Strong knowledge of MySQL, including database design, indexing, and query optimization.
- Hands-on experience with RESTful APIs and integrating third-party services.
- Proficient with GIT version control and best practices for collaborative development.
- Working knowledge of AWS services (EC2, S3, RDS, etc.) and cloud computing principles.
- Good understanding of Data Structures and Algorithms (DSA) and their application in software development.
- Ability to work effectively in a startup environment, demonstrating flexibility and a proactive approach to problem-solving.
- Excellent communication skills and the ability to work collaboratively in a team
